

**WARSAW UNIVERSITY OF LIFE SCIENCES - SGGW**

**INSTITUTE OF WOOD SCIENCES AND FURNITURE**

Conference Announcement No. 1

**Wood – the material of the 21st century**

**Woodworking and forestry for material and construction needs in  
an innovative economy**

The role of wood and forestry in the modern economy is significant and multidimensional, covering aspects related to the production of raw materials, environmental protection, and sustainable development. Wood and forestry are valuable raw materials in various architectural structures and furniture production. Wood is an alternative to traditional building materials because of the need for ecological transformation and sustainable development. Thanks to new wood processing technologies, such as engineered glued wood, the production of prefabricated elements, and the development of composite and biocomposite materials, it is possible to create more durable and functional structures. At the same time, the sustainable management of forest resources, the supply of wood as a material, and the construction of raw materials promote biodiversity and protect ecosystems, which is crucial for maintaining a healthy natural environment. An innovative approach to wood and forestry, based on scientific research, is an essential step in building an innovative and eco-innovative future economy.

**Conference topics:**

- ◆ Wooden construction and engineering structures,
- ◆ Mechanical properties and wood processing,
- ◆ Eco-innovations in woodworking and forestry,
- ◆ Wood engineering materials,
- ◆ Modifications of wood and wood-based materials,
- ◆ Protection of wood and forest resources,
- ◆ Forestry and wood harvesting.

**Chairman of the scientific committee:**

Paweł Kozakiewicz, DSc Eng.

**Chairman of the organizing committee:**

Izabela Betlej, PhD, email: [izabela\\_betlej@sggw.edu.pl](mailto:izabela_betlej@sggw.edu.pl)

**Conference date:** 5-6 June, 2025.

WARSAW  
UNIVERSITY  
OF LIFE SCIENCES

**WARSAW UNIVERSITY OF LIFE SCIENCES - SGGW**

**INSTITUTE OF WOOD SCIENCES AND FURNITURE**

**Conference venue:** Warsaw University of Life Sciences - SGGW,  
Institute of Wood Sciences and Furniture, 159 Nowoursynowska St., 02-776 Warsaw

<b>Timetable</b>	
15.05.2025r.	Final deadline for registration for the Conference. Registration form on the website: ( <a href="#">click on the link</a> )
15.05.2025r.	Final deadline is for payment of the conference participation fee.
An additional option for interested participants:	
30.04.2025r.	Original scientific articles can be published in the journal "Bulletin of the Military University of Technology" ( <a href="https://biuletynwat.pl">https://biuletynwat.pl</a> ) free of charge, and the publication language is English. Authors interested in publishing should submit the article to the system: <a href="https://editors.publisherspanel.com/ppanel/index">https://editors.publisherspanel.com/ppanel/index</a> Editorial requirements: ( <a href="#">click on the link</a> ) The journal editors decide to publish the article.

<b>FEES</b>	
Conference participants	1000 zł
SGGW employees and PhD students	800 zł
Conference participants from outside Poland	250 euro

The details for making the transfer will be provided in the next communication.

The conference fee covers participation in the conference, organizational costs, coffee and lunch breaks and a gala dinner.
